**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

In my area i only have a choice between Comcast and At&T and nothing else. Comcast constantly lies about throttling and the service from At&T is equally as horrid. Why aren't their more options for Broadband? Why am i forced to buy into companies that take billions in government money for infrastructure development for broadband and they don't even lay the lines? Additionally they are asking for MORE money after not doing anything with the money they were already provided. In addition to that At&T showing record profits and yet they still need to lay off people as they have been over the last few months. Please FCC more regulation is needed to prevent these conglomerates from taking advantage of the consumers and provided low quality/high cost internet. We need net neutrality, i'm a tax paying citizen and i feel that you as a entity do not serve the people but instead serve companies like At&T/Verizon/Comcast. Please do the right thing and regulate on these companies.
